

PAR 64 Q818 RGBW 18x8W

– we sell emotions!

SquareLED PAR 64 Q818 RGBW 18x8W

The Q818 hides its innovative technology in a par-64 short body with double yoke handle, so that it can also be used as a floor version. One of its main characteristics is the RGB-W assembly, its color mixture arises behind of the lens. This is the condition for homogeneous projections. The use of RGB-W LEDs offers the user a very wide color spectrum. Depending on the purpose, lenses with 15 / 25 / 45 degrees could be used.

Technical Data:

- » 18x8 W RGB-W Quad Color
- » Constant current: 500mA // PWM:> 400HZ
- » Life: 50000 ~ 100,000 hours
- » Control signal: DMX512, Sound to Light, automatic programs
- » Control mode: stand-alone / DMX / Master and Slave
- » Operating Channels: 3,4,5,8 CH

Technical Data:

- » Color Mixing: R, G, B, W
- » effect functions: dimmer, strobe, programs
- » Cooling: temperature controlled fan cooling
- » Anti-current intention: 1.5KV
- » Insulation resistance:> 2M Ω
